I have been instrumental in the delivery of various complex Information Technology projects for major customers in WA. I hold a PhD in Computer Science. I regularly deliver guest lectures on emerging technologies in the space of 5G and IoT.

In addition to my professional consulting experience, I was a board chair for Lake Gwelup Primary school from 2021 to 2022. The board leadership team helped the school in achieving the following objectives:

- School review: Leadership focus & Culture
- Teaching quality – Development focus

I also volunteer my team by coaching North Beach Carine Cricket Club – under 12 during the summer season. I also participate in community activities every Sunday at the Sikh temple in Swan Valley.

I am looking forward to becoming part of the Carine board, which will allow me to bring my professional experience in helping the school with its strategic objectives and vision.
